Welcome To Photokina Chemicals

PHOTOKINA CHEMICALS (PVT) LTD. (PCPL) was founded in 1985 by Mr. Jagdish M. Sheth, PCPL is a leading manufacturer/distributor for a wide range of screen making auxiliaries covering pre and post press chemicals, emulsions, accessories, polyurethane squeegees, screen printing fabrics etc. PCPL is representing world leaders in this field which can be seen in our product range.

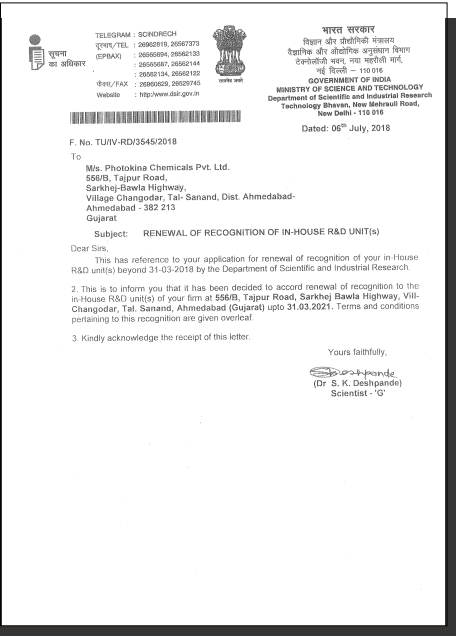

The vision of Photokina is to become a leader at a global platform with its newly developed Screen products, Chemicals and Emulsions with the support of its state of the art R&D department, which is accredited by the Department of Scientific and Industrial Research (DSIR), Government of India. This makes Photokina Chemicals the only screen printing company in India to have received this accreditation.

Quality Standards & Certifications

An ISO 9001:2008 certified company with a strong R&D backup in Screen making & grabs a major market share in the organized sector at national level.

Photokina is the only screen printing manufacturing company in india who has got DSIR certificate.

Photokina Chemicals (P) Ltd. (PCPL) has become the first company in the printing industry to receive Zero defect Zero Effect (ZED) Bronze certificate in the MSME scheme by the Government of India.

Direct / Indirect Films

Photokina manufactures a wide variety of stencil products, designed to help you make a high quality stencil. Photokina products can be used for a multitude of printing applications. From textiles, graphics, industrial,ceramics & electronics printing. We have a product that will give you result you need.

PHOTOLINE HR FILM

Direct / Indirect Photo Stencil

PERFORMANCE PROPERTIES

- Accurate, Predictable stencil thickness control for difficult repeat jobs
- Excellent print quality
- Excellent durability for long print runs
- For use with solvent-based, UV and Plastisol inks

Thickness: 19/25/38/50 Mic
Packing - 25x30 cm, 30x300cm, 50x300cm
Film Carrier : Matt / Clear

PHOTOCAP

Photokina is a First Manufacture of Capillary Film. Capillary Film is a pure photopolymer capillary film ideal for both textile and graphic printing Industries.

Thickness: 18/25 Mic
Size : 1 M x 10 M

SHEBRO THICK FILM

Shebro Thick Film (SBQ Pure Photopolymer- Manufactured First in India)is the best Choice for the production of thick stencils required for heavy ink deposit in a variety of applications.

Thickness: 100 Mic / 150 Mic / 200 Mic
Size: 100 cm x 10 meters

Textile Emulsions

BICHROMATE BASED EMULSIONS

CS-5 WR

- Emulsion with diazo sensitizer for water base, plastisol and some solvent inks for fine line/resolution

SHEBRO DIW 234

- Emulsion with Diazo Sensitizer for Waterbased, Plastisol & Discharge Inks

Phototex CTS

- Specially formulated Diazo Sensitizer Emulsion for Waterbased, Plastisol & Discharge inks.
- Works very well on CTS/DLE systems.

PURE PHOTOPOLYMER EMULSION

SHEBRO SPT HV

- Very high viscosity of about 10,000 cps allows coating thickness of 100-150 microns with just 3-4 Coats on the screen
- One Pot System. No Sensitizer Require.

SHEBRO SPT

- Very First SBQ Emulsion Made in India for Water based and Discharge Inks
- One Pot System. No Sensitizer Require.

SHEBRO DP TEX

- Dual Cure emulsion suitable for waterbase, discharge & UV inks
- Works very well on CTS/DLE systems.
- One Pot System. No Sensitizer Require

A1 EMULSION

- A Solvent base emulsion for graphic art screen printing.

SONAKOTE

- Economical screen emulsion for solvent base inks

SHEBRO DIG 28

- Emulsion with Diazo sensitizer for UV, Solvent and other inks

SHEBRO SPS

- Very First SBQ Emulsion
- Made in India for Solvent, UV and PCB Inks
- One Pot System. No Sensitizer Require.

SHEBRO DPGRAPHIC

- Dual Cure emulsion with high viscosity Suitable for Solvent based inks
- One Pot System. No Sensitizer Require.

INDIA'S FIRST
ready to use
Dual Core Emulsion

DIAZO BASED EMULSIONS

DUAL CURE EMULSION

Polyurethane Squeegee

PRODUCT FEATURES

- * High cut resistance
- * High UV/Solvent/Abrasion Resistance
- * High Tolerance to UV systems
- * Good Strength
- * Extremely Good Value
- * Low UV tolerance
- * Low tolerance to Humidity
- * Darken in UV lights
- * Low energy release blade
- * Competitive Price
- * Colour Stable

SIZE

- * Width: 10mm to 685mm
- * Thickness:- 3mm to 19mm
- * Length: 3075mm

TYPE

- * Plain
- * Double Durometer
- * Triple Durometer

HARDNESS

- * 50-55 sh
- * 60-65 sh
- * 70-75 sh
- * 80-85 sh

PROFILES

Screen Chemicals

PRE PRESS CHEMICALS

- * **SHEBRO MESH PREP**
Degreasing wetting agent to be use before screen preparation
- * **CSP FRAME ADHESIVE**
A Two component Frame Adhesive for wood & metal frames
- * **ADHESIVE**
A Two component Frame Adhesive for wood & metal frames
- * **BONDWELL**
Single component adhesive for textile metal frames

PRESS CHEMICALS

- * **SPE**
Screen Filler to touch up open areas on the screen
- * **SHEBRO HARDENER PLUS**
One Component Pinkish tone Decoater hardener to harden
- * **SHEBRO HARDENER A+B**
Two component hardener to harden textile screens
- * **PRESS WASH 117**
Solvent ink cleaner for Graphic Printing
- * **SCREEN WASH 126**
Solvent / UV ink cleaner for graphic printing

POST PRESS CHEMICALS

- * **SHEBRO SCREEN STRIPPER**
Decoating liquid to remove emulsion after print
- * **DECOATING POWDER**
Powder to decoat emulsion from screen
- * **SHEBRO DECOATER GEL**
Specially formulated gel to remove emulsion from screen
- * **SHEBRO HAZE REMOVER HS**
Liquid chemical to remove ghost Image from screen
- * **HR 2800**
Liquid chemical to remove ghost Image from screen

Screen Printing

Mesh

High modulus, low elongation monofilament polyester screen printing fabric with a proprietary surface treatment. No Degreasing pretreatment step prior to stencil processing. Superior stencil adhesion. Safe under exposure with all emulsion types, photopolymer, Dual-Cure, Diazo and Capillary Films.

Excellent performance of virgin fabric. Excellent for use with abrasive printing condition, inks and pastes. Help reduce ghost imaging.

- * Available from 115 cm / 158 cm / 165 cm / 185 cm
- * Color - White & Yellow
- * **SAATILENE HITEX**
High modulus, low elongation designed as the entry level fabric.
- * **SAATILENE HI-R**
High modulus, low elongation ready to use polyester fabric with a proprietary surface treatment.
- * **SAATILENE HIBONDPLUS**
High modulus, low elongation ready to use polyester fabric with a unique surface treatment.

Screen Accessories

Saati Advanced Chemicals LLC – USA

DIAZO EMULSIONS

CP TEX

- Direct Emulsion with diazo sensitizer for water base ink for fine line/resolution.

IMAGE MATE DC565

- Premium universal, dual cure photoemulsion intended for all extreme textile and graphic printing application.

MAGNA/CURE UDC-HV

- Universal Dual cure /high viscosity emulsion for every type of ink UV, plastisol, water based and other inks.

MAX-R

- Maximum resistance dual cure emulsion for the broadest range of applications UV, plastisol, water base, solvent base, aggressive paste etc.

IMAGE MATE DZ343

- Photo Emulsion intended for use with plastisol inks only.

RAZOR FILM

- Razor Capillary film is a pure photopolymer capillary film ideal for both textile and graphic printing industries
- Thickness: 15/18/25/40 Mic
- Size : 1.04 M x 10 M

Direct / Indirect Films

- LPF Unsensitized B 100 (CRG) 25 Mic
- LPF Unsensitized B 100 (CCV) 25 Mic
- LPF Unsensitized B 100 (CCR) 25 Mic

SUPER PHAT FILM

- Super Phat Film 100 Micron
- Super Phat Film 150 Micron
- Super Phat Film 200 Micron
- Super Phat Film 300 Micron
- Super Phat Film 400 Micron
- Super Phat Film 700 Micron

- 66 CM x 7 ft
- 66 CM x 7 ft
- 66 CM x 7 ft
- 66 CM x 7 ft

CHROMALINE FILMS

DIAZO EMULSION

TEXTIL DW

- Emulsion for Textile Printing, A direct diazo coating to use with water based ink, Easily reclaimable.

GRAFIC DS

- Diazo emulsion resistant to UV-cured, solvent-based and plastisol ink

TEXTIL HT

- Emulsion for Textile Printing.

GRAFIC HU

- Emulsion suitable for 4 colour halftone with both water based & plastisol inks.

DUAL CURE EMULSION

PURE PHOTOPOLYMER EMULSION

TEXTIL PV/TEXTILE PHU

- All Purpose solvent and water resistant photo emulsion.
- Exposes 8x faster than a diazo or dual-cure emulsion."

GRAFIC PU

- Pre sensitized emulsion. Single pot emulsion for high defination jobs and longer durability.

DIRECT PREP2

- Mesh Degreaser, To be used on every frame before using it for any job or application.

FIXER 9

- Stencil Hardener, water resistant Emulsion hardner for polyster fabric.

REMOVE HR3

- Haze Remover, Haze / Stain remover in paste form.

SAATI SCREEN CHEMICALS
